1. Electoral Engagement and Voter Turnout in Competitive Races

The concept of electoral engagement is critical in understanding the health of a democracy. Higher voter turnout in certain constituencies often correlates with more competitive races. This suggests that when the outcome of an election is uncertain or closely contested, it motivates a higher percentage of eligible voters to participate, potentially because they feel their vote has more impact.

Factors Influencing Higher Electoral Engagement:

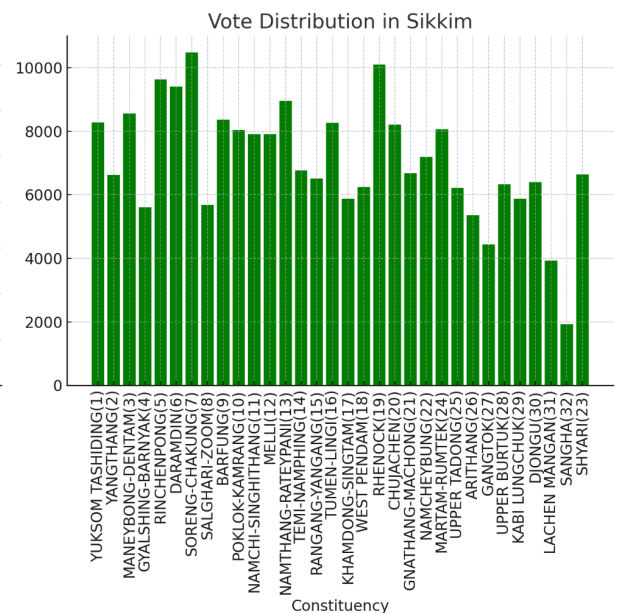

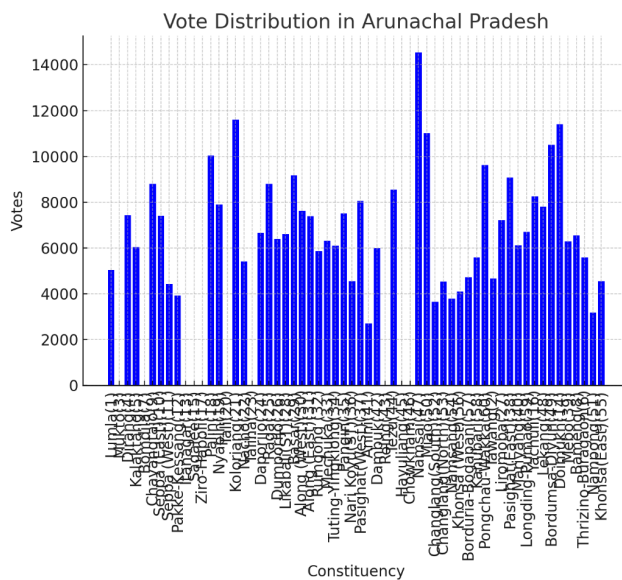

- Perceived Impact: Voters are more likely to participate when they believe their vote can significantly influence the outcome, especially in tight races.
- Political Campaigns: Intense campaigning and greater outreach efforts in competitive constituencies can also increase awareness and motivate voters to turn out in higher numbers.
- Public Interest: High-profile races often attract more media attention, which can increase public interest and voter turnout.
- Voter Mobilization: Parties and candidates might invest more in voter mobilization efforts in constituencies they consider winnable or at risk, further boosting turnout.

2. Vote Distribution in Arunachal Pradesh and Sikkim

The bar charts display the vote distribution for each constituency in Arunachal Pradesh and Sikkim:

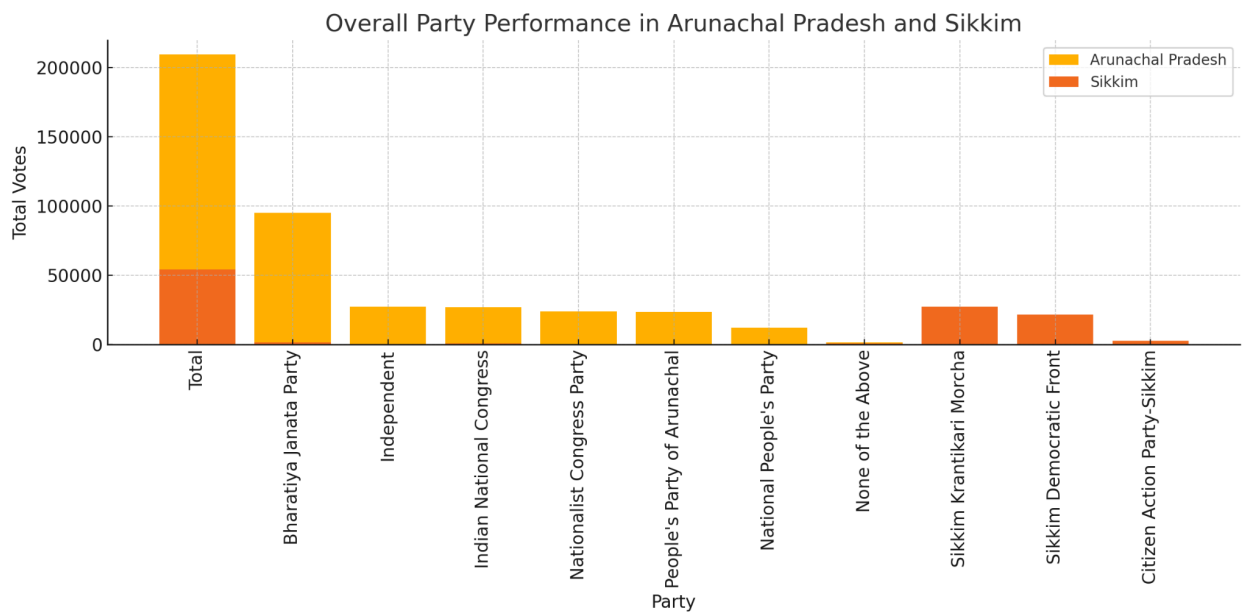

- **Arunachal Pradesh:** The votes are spread across various constituencies with some showing very high counts, reflecting possibly high voter turnout or a strong preference for certain candidates.
- **Sikkim:** The vote distribution appears more uniform with certain constituencies showing significantly high votes, indicating strongholds or highly favored candidates.

3. Overall Party Performance:

The overall party performance indicates the total votes each party received in Arunachal Pradesh and Sikkim. Here are some initial observations:

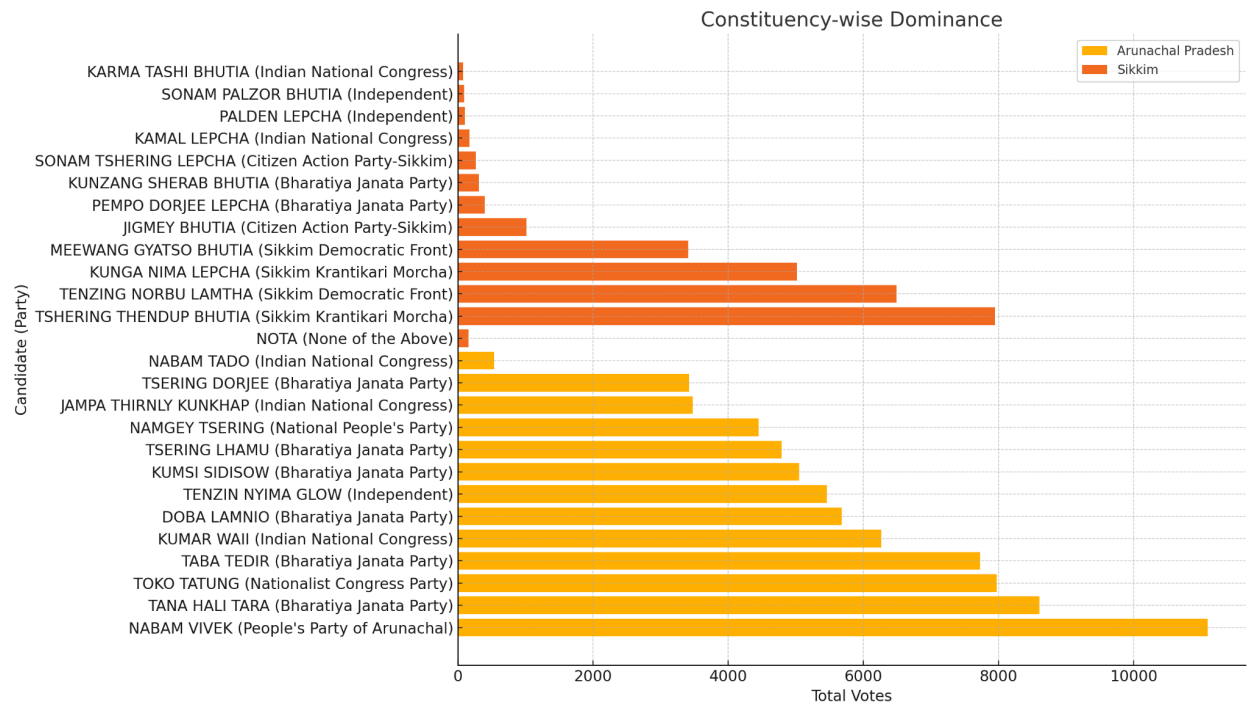

1. **BJP** in Arunachal Pradesh received the highest votes among individual parties with 95,162 votes.
2. **Independent candidates** in Arunachal Pradesh received a significant number of votes, totaling 27,210.
3. **Sikkim Krantikari Morcha (SKM)** led in Sikkim with 27,093 votes, followed closely by **Sikkim Democratic Front (SDF)** with 21,500 votes.

4. Constituency-wise Dominance

The constituency-wise dominance highlights the top-performing candidates for each party in both Arunachal Pradesh and Sikkim. Here are some notable points:

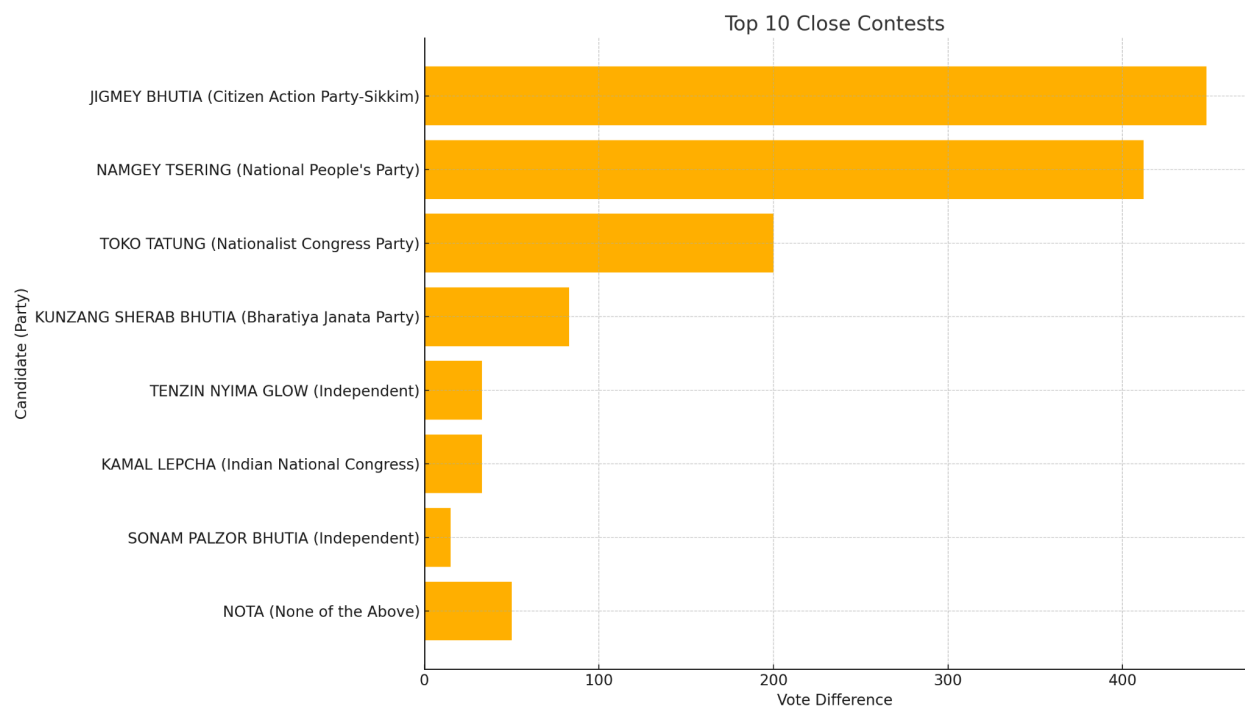

- 1. **BJP** has strong dominance in multiple constituencies in Arunachal Pradesh, with notable performances by Tana Hali Tara (8,600 votes) and Taba Tedir (7,728 votes).
- 2. **People's Party of Arunachal (PPA)** had the highest vote count in a single constituency with Nabam Vivek receiving 11,096 votes.
- 3. **Sikkim Krantikari Morcha (SKM)** and **Sikkim Democratic Front (SDF)** also performed well in their respective constituencies in Sikkim.

5. Close Contests

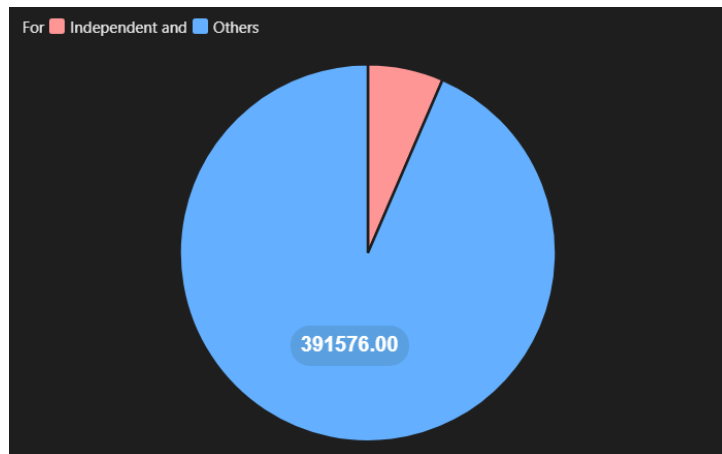

The close contests reveal the constituencies with the smallest vote differences between the top two candidates. Here are a few key points:

- 1. In Arunachal Pradesh, the closest contest was for an independent candidate with Tenzin Nyima Glow winning by just 33 votes.
- 2. In Sikkim, Kamal Lepcha (INC) had a close contest with a vote difference of only 33 votes.

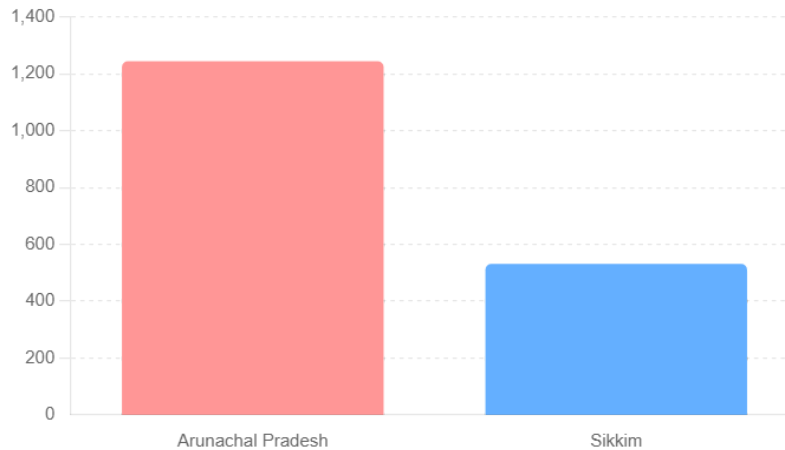

6. Vote Share of Independents in Arunachal Pradesh

In Arunachal Pradesh, independent candidates secured a total of 27,210 votes, which accounts for approximately 6.50% of the total votes cast.

7. NOTA Impact:

- In Arunachal Pradesh, NOTA received 1,244 votes, accounting for approximately 0.30% of the total votes.
- In Sikkim, NOTA received 531 votes, accounting for approximately 0.49% of the total votes.

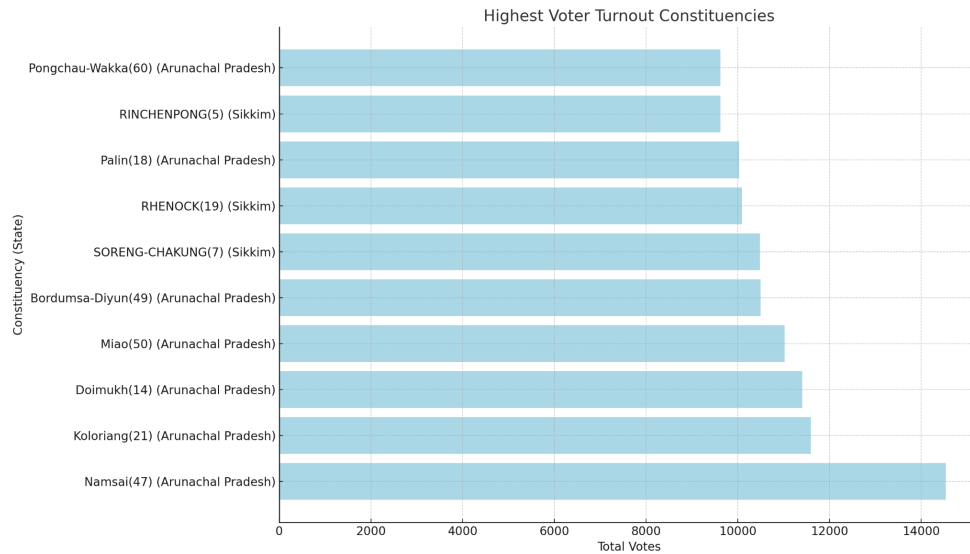

8. Top Performing Candidates:

- The top performing candidates in Arunachal Pradesh included those from BJP and PPA, with notable performances by Tana Hali Tara (8,600 votes) and Nabam Vivek (11,096 votes).
- In Sikkim, the top candidates were primarily from SKM and SDF, with Tshring Thendup Bhutia (SKM) receiving 7,944 votes.

9. Highest Voter Turnout Constituencies

1. **Namsai(47)** in Arunachal Pradesh had the highest voter turnout with 14,540 votes.
2. **Koloriang(21)** in Arunachal Pradesh had 11,594 votes.
3. **Doimukh(14)** in Arunachal Pradesh had 11,409 votes.
4. **Miao(50)** in Arunachal Pradesh had 11,021 votes.
5. **SORENG-CHAKUNG(7)** in Sikkim had 10,480 votes.

10. Candidates with Highest Margin of Victory

1. Pani Taram in Koloriang(21), Arunachal Pradesh, had the highest margin of victory with 10,550 votes.
2. Chau Zingnu Namchoom in Namsai(47), Arunachal Pradesh, had a margin of 8,556 votes.
3. P S Tamang in Soreng-Chakung(7), Sikkim, had a margin of 7,396 votes.
4. P S Tamang in Rhenock(19), Sikkim, had a margin of 7,044 votes.
5. Hayeng Mangfi in Chayangtajo(9), Arunachal Pradesh, had a margin of 6,685 votes.
